- 3/28 Principal's Challenge at CRS begins
- 3/29 First Grade Play at CRS 1:30pm
- 4/1 Otto the Auto at CRS 9am

International Heritage Day

On March 16, our school community went on a journey around the world! The countries represented were Australia, Greece, France, and Korea. There were activities, food, and other cultural items for the students and their families to engage in. Korea and Greece put on performances that represented their country. Thank you to all of the families involved in making this day such a success!

The Franklin Institute

The Franklin Institute visited CRS and LLE! At CRS the students learned about flight and motion. The students learned about what properties objects need to fly, and much more. At LLE, students learned about life in space. At both presentations, students were allowed to participate in the experiments, which explained the phenomena.
