HAVE A SAFE SUMMER!!

4th Grade Wax Museum

On Friday, June 11, the fourth grade students in Ms. Chabora, Mrs. Lefer, Mrs. Rilli, and Mrs. Forma's classes dressed up as the person they have been researching for the past few weeks as part of their biography reading unit. Once their buttons were pressed, students gave a one-minute speech about their chosen person and included information such as their accomplishments as well as fun facts.

Awesome work, fourth graders!

Summer Math Tips

- Increase your child's awareness of numbers by looking around the house to find examples: the kitchen clock, the calendar, a cereal box, a stamp.
- The supermarket is an ideal place to use math skills, particularly for older children. Point out that yogurt is \$2.59 a six-pack. Ask how much it would cost to buy 3? Your child can round up to \$3.00 and figure this out.
- The next time you go to a restaurant, hang on to the menu while you are waiting for your meal and play math games with your child. Ask them to find the least expensive item on the menu, then all the items that cost between \$5 and \$10.
- The kitchen is a great place to practice math. How many tomatoes will you need to double the recipe for sauce? If you put 10 slices of mushrooms on the pizza, ask your child to put twice as many olive slices.
- Give your child an assortment of quarters, dimes, nickels and pennies. Put a piece of fruit on the table and tell him it costs 45 cents. Tell him he needs to find five coin combinations that equal 45 cents.
- Practice math facts in the car. While driving around to different summer destinations, quiz students on addition, subtraction, multiplication or addition facts.

Spotlight on Fourth Grade

The 4th graders are gearing up for the last few days at LLE. To celebrate all of the hard work they put into their three years here, each class is participating in 10 Days of Fun. For the last ten days of the year, there is a different activity each day in which the students get to participate. Some activities we have done so far are a scavenger hunt, joke day, paper airplane competition, and beach party. The moving up ceremony and party was one of the many exciting events that happened this week. We will end the very last day of school with a pizza party and the clap out. We are going to miss our 4th graders so much next year, and we wish them the best of luck in middle school!
