April 26, 2019

Star Lab

The First Grade students at CRS on April 8th learned about astronomy and mythology thanks to the Buehler Science Center. The students learned about the stars in the night sky, how to spot them, and myths about the stars. The students really enjoyed this engaging assembly. Thank you to the PTO for the great assembly!

Me and My Dance

Students at both CRS and LLE were able to enjoy the PTO sponsored Me and My Dance. Students were allowed to bring someone special with them such as a parent, sibling, grandparent, or another special person in their life. The kids danced the night away to fun music and got to indulge in yummy treats. It was a blast for all, thank you again to our PTO!
