## American Education Week

From November 15-19, County Road and Luther Lee Emerson Schools celebrated American Education Week. The week was filled with exciting activities! On Monday, students brought in a towel or beach blanket to sit on and enjoy D.E.A.R time. On Tuesday, students had the opportunity to meet a new teacher and do a fun activity. Students brought in thank you notes to staff members on Wednesday. Items for the food pantry were brought in and collected on Thursday. On Friday, students wore Demarest colors and spirit wear. It was an exciting week for all and thank you to everyone for participating!

## LLE Thanksgiving Projects

## Spotlight on Third Grade

The third graders at LLE are working hard already in December! In language arts, the students are learning about the characters in the books that they are reading, focusing on both internal and external traits. Multiplication facts are currently being practiced in math. Students have been learning many strategies to show multiplication, including equal groups, number lines and arrays. In science, the children are learning about weather and climates. The students are looking forward to the winter concert on December 10<sup>th</sup> as well.
