Hook

Join us in Neverland! On February 9th and 10th, DMS students put on an extraordinary performance of *Hook*. DMS students participated in acting, singing, and the technical aspects of theatrical production. Thank you to Porch Light Productions and our PTO for facilitation and coordination of the program.

Franklin Institute

On February 8th, the Franklin Institute of Philadelphia visited DMS for a presentation entitled "Life in Space." This program focused on the science and engineering challenges associated with getting to space, living in orbit, and safely returning to Earth. Thank you to the PTO for sponsoring this program!

Harlem Wizards

On Wednesday, February 14th, the Harlem Wizards visited DMS to show off their moves and to promote a teachers versus Wizards event in support of NVD Project Graduation. Come see the Wizards play Demarest and Northern Valley teachers on March 25th at NVD.

Maker Space Event

On February 13th, the 7th grade STEM Enrichment group took part in a "Maker Space" event held at the Ramapo Ridge Middle School in Mahwah. Students followed the engineering and design process to improve model housing by creating innovative solutions to natural disasters. Demarest students did an outstanding job presenting their work.

Curriculum Connections

On February 6th and 7th, Ms. Desmond, Mr. Lefer and Miss Reynolds escorted the 7th and 8th grade students to view the exhibit, *Family Album*, at Demarest's Art School at Old Church. The artist, Sylvia Sherr, created work in remembrance of relatives who died during the Holocaust. This was a valuable opportunity to make cross-curricular connections between Social Studies and Visual Arts. Thank you to the Art School at Old Church staff for providing this impactful experience.
