Eighth Grade Robotics

This year, the eighth graders are lucky to have multiple Lego ev3 sets that will be used in their marking period based Robotics class. The students build and program a robot to complete missions in the style of space exploration. The class is chock full of engineering, design, and coding and engagement is through the roof!

No Homework Night

On Wednesday, October 17th, students at Demarest Middle School were treated to a "No Homework Night." The intent of this event was to incentivize additional family time for our learners.

Fifth Grade Team Building

On Friday, October 19th, the DMS fifth graders had a trip to High Exposure. High Exposure is a multi-purpose facility for sports. Climbers can scale a 40-foot puzzle cube or jump across the towering Olympus pole walk, race on speed and art walls, leap from obstacles, top out on 18-foot bouldering routes, lead 42-foot climbs featuring arêtes, arches, and overhangs. Students will be actively engaged in team building exercises which will enhance trust and conquer fears while being challenged.

Walk to School Event

On the morning of October 17th, DMS students participated in a celebration of "Walk to School Wednesday." Our students along with those from LLE and CRS met at the gazebo at 7:30 for healthy snacks, juice and water. Approximately 350 students then walked to school along with a host of DMS staff.

Upcoming Events

- **October 23rd**
Academic Merit Assessment for students in grade eight

Breast Cancer Carnival
- **November 2nd**
Chorus Event at NVD
- **November 8th & 9th**
School is closed for teachers convention

Eighth Grade Visits NV

Recently, the eighth graders visited Northern Valley Demarest High School to take part in an orientation as they prepare for high school. Students visited the various electives that are offered in order to think about classes they would be interested in taking. Following the tour, which was led by high school peer leaders, 8th graders listened to a presentation to learn about the high school process.
